DAIRY & FOOD SANITATION
VOLUME 2

AUTHOR INDEX

A

ALVAREZ, R. J., reading scientific literature; is it worth your time and effort, 6; making the most of scientific meeting, 224; formulating microbiological culture media-a careful balance between science and art, 356; quality assurance of microbiological culture media, 360; current good manufacturing practices, 447. book review, 243, 244.

B

BAKER, K. J., the food service manager training and certification program, 228.
BANDLER, D. K., rancidity: an increasingly common milk flavor problem, 312.
BARNARD, S., milk memos, 294, 329, 371; antibiotic detection programs, 498.
BASHANDY, E. Y., the use of the DHI-SCC program to select cows for bacteriological milk culture and subsequent treatment, early dry-off or culling, 289.
BASSETTE, R., book review, 72.
BENNETT, R. H., teat dip as a component of coliform mastitis control, 110.
BROWN, J. L., fundamentals of cleaning and sanitizing multiuse utensils and food equipment surfaces, 92.
BULLERMAN, L. B., book review, 511.

C

CICHY, R. F., minimizing predicted bacterial growth in a commissary foodservice system utilizing quality assurance tools, 363.
COBB, H., maintaining your USPH rating, 64.
COLE, P. H., (see Wallen 402).
COX, N. A., book review, 72.
CUSHMAN, K., (see Hankin, 100).

E

EDRO, procedures to investigate foodborne illness, 197.
EMERY, H. C., book review, 73, 244, 245, 333, 512.
ERICKSON, D. E., (see Wallen 402).

F

FAIG, H. L., a guide to sampling, 405.
FARAHNIK, S., a new method of hydrogen peroxide application "nebulization", 136; quality control of UHT processing and aseptic packing of milk, 454.
FARISH, C. A., the NSF Seal-its formulation and uses, 53.
FUNG, D. Y. C., book review, 73.

G

GILLESPIE, R. W., plumbing hazards in the food industry, 14; proper pesticide applications in food establishments, 139.
GOLD, R. E., (see Wallen, 488).
GRAVANI, R. B., training programs: they need not be boring, 96.

H

HANKIN, L., quality and labeling of cottage and ricotta cheese, 8; quality of milk and patterns of consumption of children in Connecticut schools and camps, 100; quality of sour cream and nonbutterfat sour dressing, 232; sodium in foods, 316; fruit content of breakfast cereals, 409; quality of crackers, 444.
HANNA, J. G., (see Hankin, 232, 316, 409, 444).
HEALD, C. W., checking electronic somatic cell count machines, 276.
HEIDER, L. E., (see Bashandy, 289).

J

JOHNS, C. K., IAMFES history of the seventies, 119, 150.

K

KAMBLE, S. T., (see Wallen, 488).
KAUFMANN, O. W., microbiology in food processing, 18.
KUBIK, D. J., (see Wallen, 402).

L

LAGRANGE, B., the foodborne illness equation, 195.
LANCASTER, D. L., maintenance and measurement of product temperature in food service, 146.
LECOS, C., NCTR: gazing at the scars that our concoctions may leave behind, 20.
LYON, C. E., book review, 511.
LYON, G., book review, 245.

M

MARSHALL, R. T., presidential perspective, 441, 485; presidental address, 462.
MATTHEWS, M. E., book review, 246.
MCLEAN, L. A., (see Hankin, 444).
MILLER, R. W., 1 alert cook + bad can of mushrooms = a total recall, 48; gumshoeing the FD & C Act at the grass roots level, 106.
MORSE, R., septics and shigellosis linked in Marion County, 400.

N

NICHOLAS, R. C., (see Cichy, 363).
NICHOLS, M., (see Alvarez, 356).
NORRIS, J. G., sanitation in the processing and packaging of raw cider, 143.

O

OWEN, F., (see Wallen, 367, 402).

THOMAS, C. P., (see Snyder, 33).
THOMPSON, R., purifying food via irradiation, 50.
TROBAUGH, W. S., quality assurance through the preliminary incubation count, 184.

V

VEBURG, E. J., (see Wallen, 402).
VON ELBE, J. H., United States food laws and regulations: an overview, 321.
VOORN, R. J., a marketing perspective of dairy product quality, 268.

W

WALKER, C. E., (see Wallen, 488).
WALLEN, S., measurement and reduction of iodine in milk, 367; how to prevent antibiotic contamination of milk and meat, 402; storage of grains, edible seeds and processed foods, 488.
WOLFF, E. T., (see Senyk, 318).

Z

ZALL, R. R., (see Senyk, 318).

SUBJECT INDEX

Antibiotics
  detection of, 498
Chemicals
  effects of, 20
Crackers
  quality of, 444
Dairy Industry
  checking electronic somatic cell count machines, 276
  dairy product quality, 268, 509
  in the Virgin Islands, 449
  iodine in milk, 367
  maintaining your USPH rating, 64
  milk consumption patterns, 100
  milk memos, 294, 329, 371
  preventing antibiotic contamination, 402
  quality and labeling of cheeses, 8
  quality assurance through the preliminary incubation count, 84
  quality of sour cream and non-butterfat sour dressing, 232
  rancidity, 312
  raw milk quality in New York, 318
  rebuilding a dairy plant, 492
  teat dip for coliform mastitis control, 110
  use of the DHI-SCC program, 289

FDA
  bad can of mushrooms, 48
  gumshoeing the FD & C Act, 106
Food
  sodium in, 316
Foodborne Illness
  equation of, 195
  investigation of, 197
Food Establishments
  cleaning and sanitizing, 92
  pesticide applications, 139
Food Industry
  plumbing hazards, 14
  warehouse organization, 447
Food Laws
  U.S. regulations, 321
Food Processing
  microbiology in, 18
  product temperature, 146
Food Purification
  minimizing bacterial growth in a commissary, 363
  via irradiation, 50
Food Service Equipment
  NSF Seals, 53
  Food Service Sanitation Notes, 39, 71
Fruits
  cereals, 409
IAMFES
  abstracts of papers presented at 1982 annual meetings, 421
  affiliate news
    Illinois, 516
    Indiana, 257, 516
    Iowa, 296
    Connecticut, 330
    Pennsylvania, 388
    Florida, 388
    Tennessee, 389
    Minnesota, 429
    Wisconsin, 126, 516
    affiliate officers, 124, 344, 479
    committee reports, 69, 205, 327
    officer candidates, 500
    presidential address, 462
    presidential perspective, 441, 485
    year index, 522

Literature
  making the most of scientific meetings, 224
  reading scientific literature, 6
Microbiological Culture Media
  careful balance between science and art, 356
  quality assurance of, 360
Packaging
  nebulization, 136
  quality control, 454
Salmonellosis
  outbreak at a Milwaukee hotel, 190

Sampling
a guide to, 405
Sanitation
microbial injury reviewed, 57
processing of raw cider, 143
Septics
Shigelloisis in Marion County, 400
Storage
grains and seeds, 488
Training
food service managers, 228
programs need not be boring, 96
3-A Sanitary Standards
holders, 75, 381
new standards, 249, 253, 297

Dairy and Food Sanitation is accepting articles for publication for 1983.
